Coverage for All Makes and Models

Don't Take Chances.

As better hearing with amplification becomes a vital part of your life, the need to protect this precious investment is especially important. To suddenly be without your hearing instruments can be very upsetting, not just for you, but for family and friends as well.

protection against failure, damage and even loss.

Of course, all new Starkey instruments carry a full one-year warranty covering repairs for mechanical and fitting problems, plus a one-time replacement due to loss or total destruction. Before your original warranty expires, you

can extend this comprehensive coverage by selecting the Worry Free Extended Warranty.

Yet, even with every precaution, the unthinkable can occur. Hearing instruments can malfunction or get lost – usually at the worst possible time.

Protection That Fits Your Needs.

We're pleased to offer comprehensive Worry Free Warranty coverage for ALL hearing instrument brands. Available at anytime, as long as your instruments are in proper operating condition, our plans provide

We are also pleased to offer Worry Free Warranty Loss, Damage, and Repair coverage on other instrument brands as well. We'll be happy to explain which of these flexible protection plans best meets your hearing and lifestyle needs.

How Worry-Free Warranties Work.

If you experience problems with your instrument(s) during the warranty period, simply bring them

with your warranty card to your hearing

professional. In many instances, we can diagnose the problem and make immediate corrections. For more complex problems, your instruments may be sent to the manufacturer or repair lab. In some cases, loaner instruments are available while yours are serviced.

Starkey is the world's largest repair service with the most experienced technicians. We accept all repairs – even those from other companies that original manufacturers cannot or do not accept.

Enjoy True Worry-Free Hearing.

For most people, hearing instruments become such a vital and normal part of life that they forget they're wearing them. Let us help protect and enhance that peace of mind with Worry Free Warranty coverage from Starkey.

Hearing aids are sophisticated miniature devices that can provide years of benefit when cared for properly. The following are a few simple reminders about the care of your hearing instruments:

- Never attempt to repair your hearing instruments. Do-it-yourself repairs usually cause more damage than good. Any problems should be reported immediately to your Starkey hearing professional.
- Never wear your hearing instruments in the shower or while swimming.
- If your hearing instruments do get wet, never try any "quick drying" methods such as microwaves, hair dryers or ovens. Consult your Starkey professional if your instruments are inoperable due to moisture.
- Always place your hearing instruments in a safe place out of reach of pets or small children.
- If your hearing instruments sound distorted or unclear they may be in need of repair and you should consult your hearing professional immediately.
- Visit your hearing professional at least twice a year for follow-up care and routine service. Hearing loss is dynamic and we recommend that you have your hearing tested at least once a year to ensure you are receiving maximum benefit from your hearing instruments.
