

Custom digital hearing technology

The right hearing instrument style and size for you depends on several factors, including:

- degree of hearing loss
- listening requirements
- ear shape and size
- ability to handle instrument and controls
- lifestyle needs

your authorized hearing professional:

Better hearing in a shape and size that fits your needs and lifestyle.

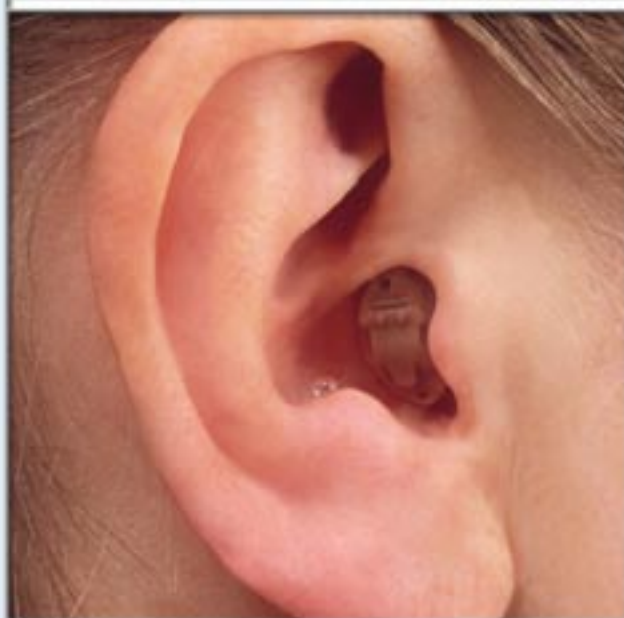

visit www.starkey.com for complete hearing information

Better hearing in a shape and size that best fits your needs and lifestyle.
