

WITH PDI,  
YOU CAN HEAR  
WHAT'S REALLY  
IMPORTANT TO YOU!

# HEARING AID PRODUCT ALERT!

Starkey Labs has just released the new digital technology called **Precision Directional Imaging**.

Research shows this new technology has proven to improve speech understanding in noise by as much as 50%!

Hearing aid wearers no longer have to suffer with annoying background noise while trying to enjoy a conversation in a noisy environment.

At the time you purchased your hearing aids, you were provided with the best prescription for your hearing loss. However, we believe you may benefit from this new level of technology.

During your visit, receive a **FREE** '5 Point' hearing aid check up and a **FREE** demonstration of the PDI technology.

Call us today to reserve your no obligation appointment.
