

hearing problems?

take a look
inside your ear.

The Video Otoscope is a miniaturized camera that displays an exceptionally clear picture of your ear canal on a full-color monitor. You'll see right away if earwax is a problem.

The Video Otoscope can also help us determine the cause of fitting and other problems with your current hearing aids. Let us demonstrate this state-of-the-art technology to you at NO CHARGE. Please call ahead for an appointment.

See for yourself!
It may be just an earwax problem.

your exclusive
hearing consultation

is being offered on:

Monday - Friday
November 1st - 5th
from 9 am to 5 pm

ABC Hearing Aid Center
101 North Elm Street
Anytown, USA 00000
(800) 123.4567 or 123.4567

Please call to confirm this appointment time.

PDI Digital
Special Event!
This Week Only

A hearing consultation is very important, especially if:

- > you find it difficult to understand others, especially in crowds.
- > you or your loved ones suspect you have a hearing loss.
- > you have trouble hearing the TV, phone, or other everyday sounds.
- > it has been over 12 months since you've had a hearing test?

Please call early to confirm your appointment. But hurry, only a limited number of appointments are available. This hearing consultation is **FREE OF CHARGE!**

Instead of hearing ALL the conversations ...

... understand the one that matters most.

HEARING AID
PRODUCT ALERT!

Starkey Labs has just released the new digital technology called **Precision Directional Imaging**.

Research shows this new technology has proven to improve speech understanding in noise by as much as 50%!

Hearing aid wearers no longer have to suffer with annoying background noise while trying to enjoy a conversation in a noisy environment.
