

ATTENTION HUNTERS

Now you can enhance your hearing much like a scope or binoculars do for your vision. Hear your target sooner and more clearly – taking full advantage of

one of your most powerful senses to increase your reaction time – all without interfering with your firing position.

You'll Hear Them Before They See You

Magnum Ear amplifies the sounds of an approaching target, while suppressing dangerous muzzle blasts that are harmful to your hearing.

Magnum Ears are precisely crafted for your ear(s) and available in a variety of configurations.
