

Better hearing in a shape and size...

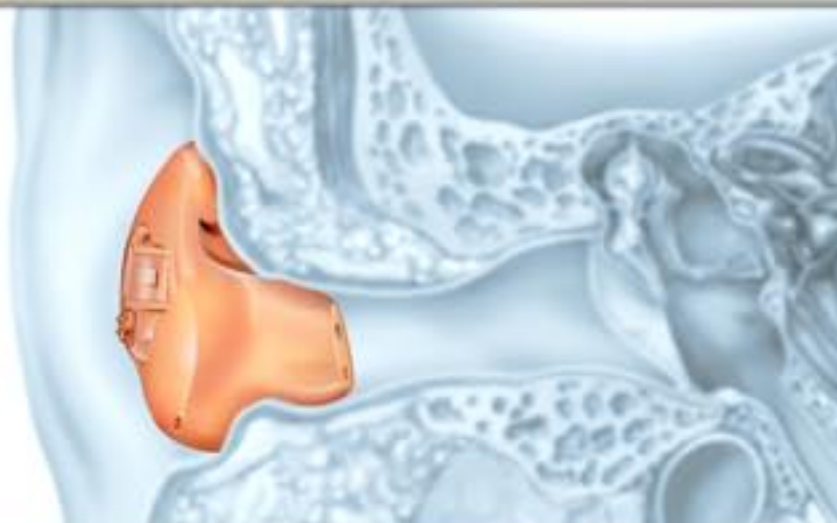

Completely-in-the-canal (CIC)

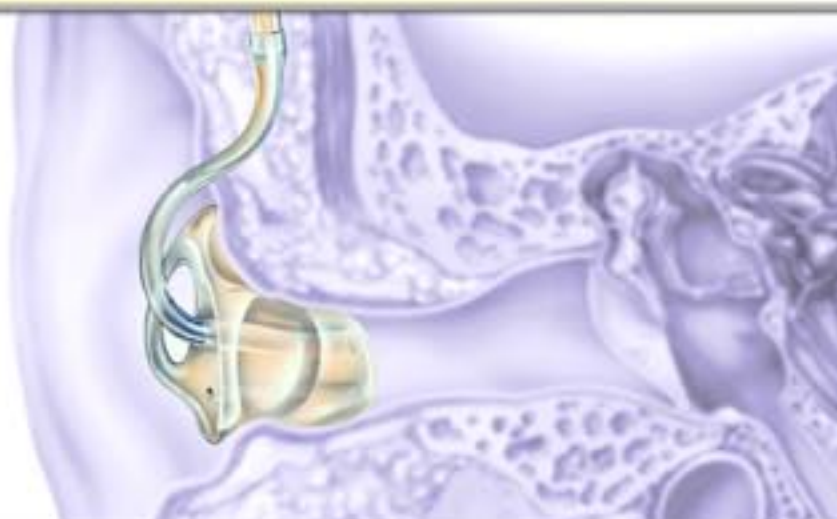

In-the-canal (ITC)

In-the-ear (ITE)

Behind-the-ear (BTE)

The right hearing instrument style and size for you depends on several factors, including:

- degree of hearing loss
- listening requirements
- technology needs
- ear shape and size
- ability to handle instrument and controls
- lifestyle needs

...that best fits your needs and lifestyle.
