

SoundLens – Invisible Custom Hearing Product

SOUNDLens™
Featuring Voice iQ²

SOUNDLens™
Featuring Voice iQ²

Think hearing aids should
be heard, not seen?
Then SoundLens by
Starkey is for you.

SoundLens, the first custom
fit invisible-in-the-canal hearing
aid, features Starkey's latest
technology on the market —
meaning they're completely
invisible, and totally designed
to fit your lifestyle.

**Starkey's best
technology in
an invisible* style.**

Featuring Voice iQ², Starkey's
latest noise reduction and speech
preservation system designed
to filter out background noise

Fit comfortably in the second
bend of your ear canal

Designed to be removed daily
to promote better ear health

Virtually no whistling or buzzing

SOUNDLens™

Featuring Voice iQ²

GET THE BEST OF BOTH WORLDS.

SoundLens fits comfortably inside the second bend of your ear canal – completely out of sight and completely off your mind.

But don't be fooled by its small size. Only SoundLens comes packed with Starkey's innovative technologies, including our latest feedback canceller, and noise reduction and speech preservation system. The result is a 100% invisible hearing aid that is designed to deliver:

performance

Utilizes Starkey's latest technologies to automatically recognize and reduce noise for more comfortable listening in loud environments.

comfort

Designed to fit snugly in the second bend of your ear canal.

personalization

They are the first invisible-in-the-canal hearing aids custom fit specifically for your ears and hearing needs.

Technology

Benefit

Invisible-In-The-Canal

The first 100% custom, invisible, digital and fully programmable hearing aid

PureWave Feedback Eliminator

Virtually eliminates buzzing and whistling

Voice iQ²

Designed to maintain speech understanding in noise and reduce listening effort**

T² Remote Control

Lets you adjust memory or volume settings using any touch-tone phone

Spectral iQ

Replicates hard-to-hear high frequency sounds in lower frequencies, designed to enhance and expand audibility

If you've been interested in extended wear products but have found you weren't a candidate, talk to your hearing professional about SoundLens, the latest in invisible hearing aids.
