Reimagining what a hearing aid can do
Redefining what a hearing aid can do

We’ve reinvented the hearing aid with Livio AI, the world’s first Healthable hearing aid with artificial intelligence and embedded sensors.

Livio AI addresses the deep connection between hearing health and overall health, empowering you with life-changing features and sound quality that, until now, was never possible in a hearing aid.

Award-winning technology

Livio AI is the next step in our continuous effort to give you the best hearing health solutions with the most advanced technologies.
Livio AI is not only our best sounding hearing aid ever, it’s the world’s first hearing aid that monitors brain and body activity and provides convenient features that can simplify your life.

**Built-in Artificial Intelligence**

Livio AI gives you life-changing features with powerful artificial intelligence in every device.

**The Most Complete Line of Rechargeable Hearing Aids**

The world’s first 2.4 GHz custom-molded rechargeable hearing aids give you discreet, comfortable and convenient options.
Thanks to advanced technology we call Hearing Reality, Livio AI is designed to be effective in the noisiest environments. In fact, a recent independent study gave Livio AI hearing aids the top rating compared to other manufacturers’ premium devices for reducing background noise in noisy listening environments. And our Mask Mode feature helps make it easier to hear people who are wearing face masks.

Hear speech comfortably even in busy settings while unwanted noise is suppressed.

No buzzing, no whistling, just comfortable, feedback-free listening all day.

Get superior sound quality, clarity, more natural hearing and effortless transitions.

Stream crisp, clear phone calls and experience music the way it was meant to be heard.

Connect hearing aids via Bluetooth® with accessories and select smartphones.*

Preserve peace and quiet while important sounds like speech are amplified.

*Remote Microphone + is required for certain smartphones.
Healthy hearing means a healthier you

A growing body of evidence points to a connection between hearing health and overall health. People who treat their hearing loss not only hear better, but may lower their risk for serious health issues such as cognitive decline and dementia.²

**Body Tracking**
Staying active is key to staying healthy. Tracking steps and movement has been shown to inspire continuing or increasing activity.

**Brain Tracking**
Healthy social interactions can reduce stress and help prevent depression. Monitoring hearing aid use and engagement can support better brain health.

**Better tracking accuracy**
The ear is better than the wrist for tracking health and fitness data. Livio Al provides you with that advantage.
Custom.
Convenient.
Comfortable.

Meet the world’s first custom rechargeable hearing aids. Custom means the hearing aid is custom molded to fit your unique ear canal comfortably and securely. And they won’t get tangled or pulled off when wearing or removing face masks. Multiple color options allow you to be discreet or show off your new in-ear device.

Easy personalized control

The Thrive Hearing Control app works seamlessly with Livio AI to give you complete control of your hearing aids. Change settings easily, quickly adjust volume, create customized memories and stream music or phone calls with the touch of a button.

And that’s just the beginning

The Thrive Hearing Control app delivers many powerful features that are easy to use and will help you manage your health and access useful information.

Our new charger fits all custom hearing aids and provides up to 24 hours of power in a single charge.
Simplify + thrive

No other hearing aid puts powerful, easy-to-use information features at your fingertips like Livio AI.
